

—————> Improve the sound of any room. Rooms have three dimensions: Length. Width. Height. In rooms with spatial bass, three subwoofers (one larger and two smaller) are placed strategically to, "...maximize their independence...", from each other.

Step 1
Floor (Larger subwoofer)

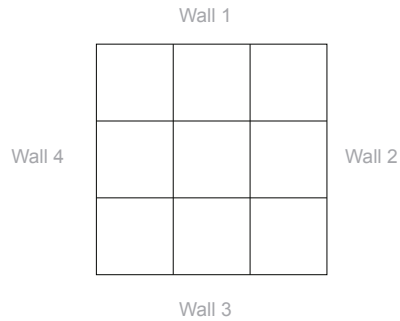

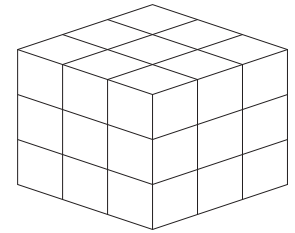

Diagram illustrating a 3x3 grid representing a room layout. The grid is labeled with walls:

- Top wall: Wall 1
- Bottom wall: Wall 3
- Left wall: Wall 4
- Right wall: Wall 2

A 3x3 grid of squares. The top, bottom, left, and right sides of the grid are labeled 'Wall 1', 'Wall 3', 'Wall 4', and 'Wall 2' respectively. The grid is composed of 9 squares arranged in 3 rows and 3 columns.
